DSTSCH-050	36002	BT-50 & CAT-50
DSTSHSK-063	36003	HSK63
DSTSHSK-100	36004	HSK100

Mounting, Loading and Positioning

Mounting

Mount the Smart Tool-Setter on a solid workbench. Use the 4 holes provided on the base to bolt down the Smart Tool-Setter.

Holder Loading

Put holder in while handle is in unlocked position. Rotate handle to locked position to lock holder on the "V" groove located on the diameter of the holder. Knob positively locks the tool in and does not allow tool to come out of place.

Positioning

Horizontal Left Hand

Horizontal Right Hand

Vertical

Pull the indexing knob to unlock, turn into a new position, and release the knob to lock.

Application

The Smart Tool-Setter's precise and heavy duty construction make the tool-setter very rigid and able to endure extreme forces without causing any damage to tools or the Smart Tool-Setter.

The multi-functioning and positioning of the Smart Tool-Setter allow the operator to switch quickly and easily from one operation to another without loss of time.

Small Tool Change

Endmills can be easily, quickly, and precisely set with the Smart Tool-Setter.

Large Tool Change

Large tools can be mounted or removed with the Smart Tool-Setter.

Pull Stud Change

Pull Studs can be quickly and easily changed using the Smart Tool-Setter.
